Drone Technology - The Future is Now

Today, drones are a popular topic in the media and in several industries. Like other technologies initially developed for military applications, drones are quickly becoming commercialized and commoditized. Sales of commercial drones are exceeding market predictions and consumers are finding more and more ways to leverage drones beyond what anyone imagined. Uses range from agriculture and infrastructure inspection to photography and film production.

The American Heritage Book Group

2015-16: Founding of Our American Heritage

It was a contest of titans: John Adams and Thomas Jefferson, two heroes of the Revolutionary era, once intimate friends, now icy antagonists locked in a fierce battle for the future of the United States. The election of 1800 was a thunderous clash of a campaign that climaxed in a deadlock in the Electoral College and led to a crisis in which the young republic teetered on the edge of collapse.

Adams vs. Jefferson: The Tumultuous Election of 1800 by John Ferling.

The Kitchi Gammi Club Foundation is a not for profit 501(c)(3) corporation established to maintain the exterior of the Kitchi Gammi Club building. Donations to the KGC Foundation are tax deductible as a charitable contribution.

The American Heritage Book Group

2015-16: Founding of Our American Heritage

When the delegates left the Constitutional Convention in Philadelphia in September 1787, the new Constitution they had written was no more than a proposal. Elected conventions in at least nine of the thirteen states would have to ratify it before it could take effect. There was reason to doubt whether that would happen.
